EDUCATION

Computer Science

Universidad Central "Marta Abreu" De Las Villas

📅 Sept 2005 - Jun 2009

📍 Villa Clara, Cuba

Informatics Engineering

Computer Science

Universidad De Sancti Spíritus "José Martí Pérez"

📅 Sept 2009 - Jun 2014

📍 Sancti Spíritus, Cuba

SKILLS

- Programming Languages: Java, Dart, PL/SQL
- Scripting Languages: PHP, Python, JavaScript, Bash
- Spring Boot, Flutter, Hibernate ORM, Spring REST
- Back-End and Database Skills
- Databases: PostgreSQL, MariaDB, MySQL, MongoDB
- RDMS Development and SQL
- DevOps Engineering
- Systems and Network Engineering
- Source and Version Control: Git, GitHub, GitLab
- Linux Operating System, with over 20 years of experience
- Critical Thinking
- Avid Learner

LANGUAGES

- Spanish (Native)
- English (Very Good)

PROFESSIONAL SUMMARY

Well-qualified Full Stack Developer familiar with wide range of programming utilities and languages. Knowledgeable of backend and frontend development requirements. Handles any part of process with ease. Collaborative team player with excellent technical abilities offering +10 years of related experience. Hard working, with great problem solving skills and high attention to details.

WORK EXPERIENCE

Full-Stack/Mobile Developer, DevOps

Abalia

📅 September 2020 - current

📍 Madrid, Spain

- Worked with software development and testing team members to design and develop robust solutions to meet client requirements for functionality, scalability and performance.
- Incorporated database technologies such as relational databases, SQL and NoSQL into coding projects.
- Streamlined open source programming assets into projects to shorten development times and enhance software compatibility.
- Maintained deep knowledge of diverse programming domains to integrate multi-disciplinary assets into finished products.
- Completed devices, components, applications and services installation and maintenance activities.
- Reviewed code, debugged problems and corrected issues.
- Identified and suggested new technologies and tools for enhancing product value and increasing team productivity.

Developer, DevOps, System Administrator

Universidad de Ciencias Médicas Dr. Faustino Pérez Hernández

📅 January 2018 - April 2020

📍 Sancti Spíritus, Cuba

- Wrote quality code to program complete applications.
- Collaborated with software engineering personnel to introduce customized library and digital repositories applications into workflows.
- Established network specifications and analyzed workflow, access, information and security requirements.
- Oversaw file system, storage and other digital asset upgrades while safeguarding data integrity and redundancy.
- Installed important security and functionality patches to maintain optimal protections against intrusion and system reliability.

Software Engineer, System Network Administrator

Universidad De Sancti Spíritus "José Martí Pérez"

📅 August 2014 - December 2017

📍 Sancti Spíritus, Cuba

- Checked code for bugs and weaknesses using approved troubleshooting methods.
- Created procedures for system monitoring, recovery, backup and optimization.
- Installed and configured software applications and tested solutions for functionality.
- Coordinated with other engineers to evaluate and improve software and hardware interfaces.
- Updated old code bases to modern development standards, improving functionality.
